

COOKIES POLICY

A cookie is a small text file of letters and numbers that websites send to a visitors computer hard drive, mobile device or other Internet-connected device via browser. Thanks to them it is possible to memorize login data, website settings, to receive hit counters service, to use polls, to memorize language settings or to do some online shopping. Properly configured cookies are safe and reading information is allowed only to the server that created them. How do we use cookies?

1. RESORT STUDIO website collects information only from cookie files, but it doesn't collect any other data about users (we don't use tracking cookies, files that allow spying users).
2. We use cookie files in following purposes:
 - a) to adjust website content to the users preferences and optimise using of the website. These cookies are used to recognize user devices and make the website more relevant to their personal needs.
 - b) to create statistics that help with analysing how Users use websites
3. Our cookie Types:
 - a) Session cookies: these cookies are temporary and only last for the duration of browsing session. They are deleted when user logs out, closes website or browser.
 - b) Persistent cookies: these cookies are stored on a user's terminal device until it expires (persistent cookies are set with expiration dates) or until the user deletes the cookie.
 - c) Cookies external entities : these cookies enable optimization of marketing communication, counting user traffic on the website and customized advertising content from external sources.
4. In many cases, the software used for browsing the web (browser) is allowed by default to store cookies on the terminal device. The users can make at any time, change the settings on the cookies. These settings can be changed at any time by the user, in particular, in such a way as to block the automatic handling of cookies in your web browser or inform on them every time you enter in the user device.
5. Detailed information about the possibilities and ways of handling cookies are available in the settings of the software used to browse the web (web browser).
6. The Service Provider informs that restrict the use of cookies may affect some functionality available on the website.
